Why are Higg facility tools prices changing?

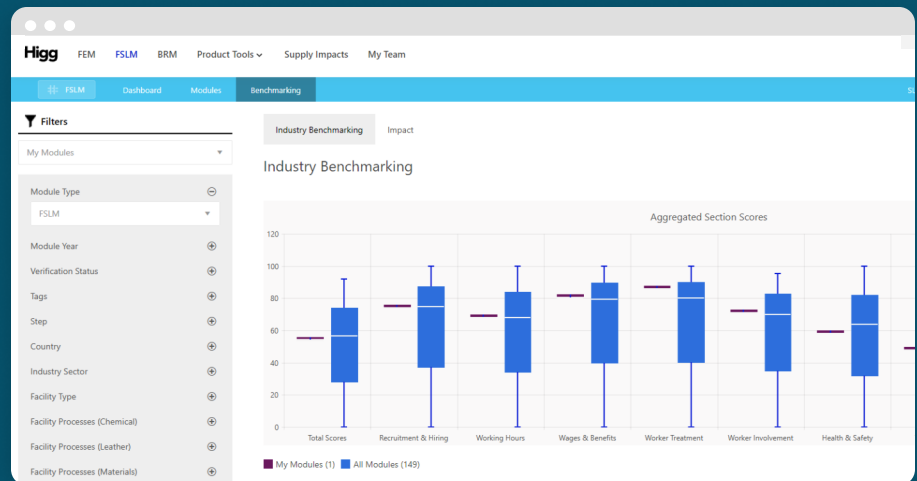

Our pricing changes reflect the significant investments and increase in value to meet the needs of enterprise customers. Higg subscriptions support all facilities, from experienced Higg users to those completing assessments for the first time. Our investment in software development, training, and support have reduced the amount of time it takes to complete assessments by 55% – from an average of 250 days to 115 days.

Make the Most of Higg

Benchmark Your Performance

With the benchmarking feature, you can set a baseline to compare your facility's performance year over year, helping you identify hotspots and track improvement over time.

You can also compare your sustainability performance to other companies like yours and see how your sustainability performance compares to global and regional averages.

From Insights to Action

Through accurate, credible, and contextualized data, Higg enables millions of more sustainable decisions by our customers.
