Worldly

Tiffany Leung
Associate, Customer Success,
Worldly

Agenda

- 01** Introduction – Tapestry
- 02** Data Collection Process overview
- 03** Factory Data Capability
- 04** Platform Interface & Demo
- 05** Support & Training
- 06** Q&A

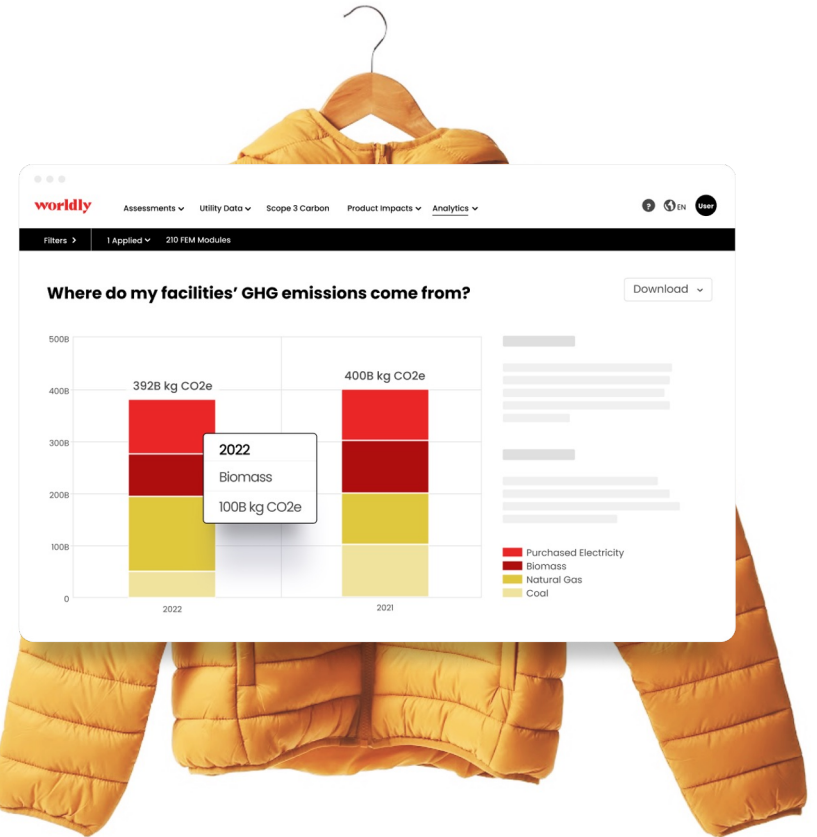

Introduction by Tapestry

- > Track MONTHLY ENERGY, WATER AND WASTE data throughout the year.
- > Track data against TARGETS and assess progress and immediately identify problem areas.
- > Auto uploads to HIGG FEM when completing the self-assessment.
- > TAPESTRY can assess your progress in real time and identify areas where support is required.

worldly™

The planet's most comprehensive impact intelligence platform.

Data Collection Process Overview

**End
Mar**

Kick off

Different communication sent regarding Factory Data Tool

Apr 15

Platform Access

Get access to Factory Data in Worldly platform & start filling out Q1 data for 2024

Jul 31

Submission deadline

Q2 24' Factory Data Submission for Energy, Water and Waste by submission deadlines.

Jan 31

Submission deadline

Q4 24' Factory Data Submission for Energy, Water and Waste by submission deadlines.

Onboarding Training

Tapestry collaborate with Worldly arranging onboarding training for Factory Data Pilot Participants

Apr 11

Submission deadline

All factories are requested to complete the Q1 24' Factory Data Submission for Energy, Water and Waste by submission deadlines.

Apr 30

Submission deadline

Q3 24' Factory Data Submission for Energy, Water and Waste by submission deadlines.

Oct 31

The data will be **validated** (by desktop) and **verified** (on-site).

Tapestry is in the process of defining the best and most cost-effective approach and will share details ASAP.

Factory Data | Stakeholders Roles

Your Company

- Log in to worldly.io & purchase Factory Data (use code FD2024TPR)
- Share module with Tapestry after purchase
- Fill out your factory's utility data every month as you receive your bills
- Upload the corresponding bills as evidence
- Sharing the uploaded data with Tapestry
- Reach out to Worldly with questions
- Share your feedback during pre & post survey

WORLDLY

- Manage Factory Data adoption
- Communicate with participants re. their submission status
- Technical support (training & troubleshooting)
- Monitor program progress
- Collect feedback / Platform Improvement

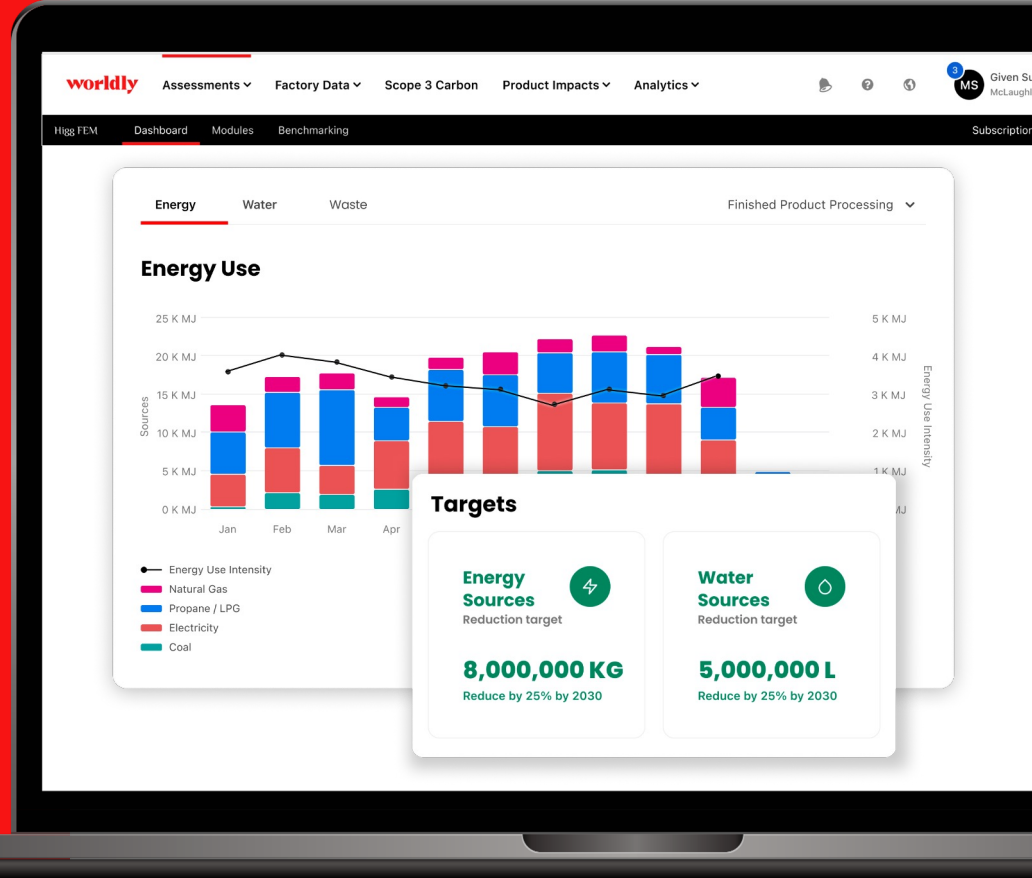

Tapestry

- Review submitted data
- Program development
- Data collection review and Improvement

Factory Data Capability

Worldly's Factory Data tool

Make timely, data-driven decisions to meet your SBTi goals and prepare for regulations.

Supplier Impact Tracker | Scaled Data Collection

Stay aligned with the **Higg FEM**

- Receive data reported by facility type and production volume data, mirroring Higg FEM
- Automatically aggregate results and add to Higg FEM at the end of the year
- Offer a consistent facility experience using one platform year-round

worldly™ + **Higg
Index** 

Factory Data

Empowering a **smarter approach** to manage impact

Current Ways of Working

With Factory Data

Limited collaboration

A new level of brand and supplier collaboration

Disparate data collection

Simplified, scalable primary data collection

Overwhelming, difficult to analyze data

Actionable insights based on validated results

Platform Interface & Demo

Navigation

The screenshot displays the Worldly Factory Data interface. At the top, the navigation bar includes the 'worldly' logo, 'Assessments', 'Factory Data' (highlighted with a red box), 'Product Impacts', and 'Analytics'. On the right side of the navigation bar, there are icons for notifications, help, and a user profile for 'Supplier Imp...' (Leah Jaggars). Below the navigation bar, a dark sidebar contains 'Factory Data', 'Dashboard' (highlighted with a red box), and 'Modules'. A red arrow points from the 'Dashboard' box to the 'Submit Data' button in the main content area.

Submitting Data

Overview

1. **Prepare** - Gather your utility data for the reporting period
2. **Select** - Choose the reporting parameters
3. **Input** - your site information, this information rolls forward in subsequent submissions
4. **Submit** - Enter data for each section you selected and submit

Preparation

Key things to know:

- Uploaded bills are not shared with Brands even when the module is shared with the brand
- Facilities only have access to uploads and can share with validators
- Monthly submissions

Opening a submission

The screenshot displays the 'worldly' interface for 'Supplier Impact Track Demo'. The top navigation bar includes 'Assessments', 'Factory Data', 'Product Impacts', and 'Analytics'. A dropdown menu is open under 'Assessments', showing 'Submission' (highlighted with a hand cursor) and 'Tracking'. On the right, there are notification, help, and user profile icons. The user profile is 'Leah Jaggars' with a 'SIT' icon. Below the navigation, there are two status indicators: 'FEM 2023 In Progress' (orange dot) and 'FSLM -Dec 2023 Not Started' (red dot). The main content area is divided into three sections: 'Assessments' (Adoption), 'Factory Data' (Tracking), and 'Product Impacts'. The 'Assessments' section lists three items: 'Higg FEM Environmental' (28% progress), 'Higg FSLM Social & Labor' (0% progress), and 'Higg BRM Brand & Retail'. The 'Factory Data' section has a 'Submit Data' button and a timestamp 'Last Posted Apr 3, 2024'. The 'Product Impacts' section lists 'Higg MSI Materials Sustainability Index' and 'Higg PM Product Module'. A 'Show' button is located on the right side of the main content area.

Facility Set-up

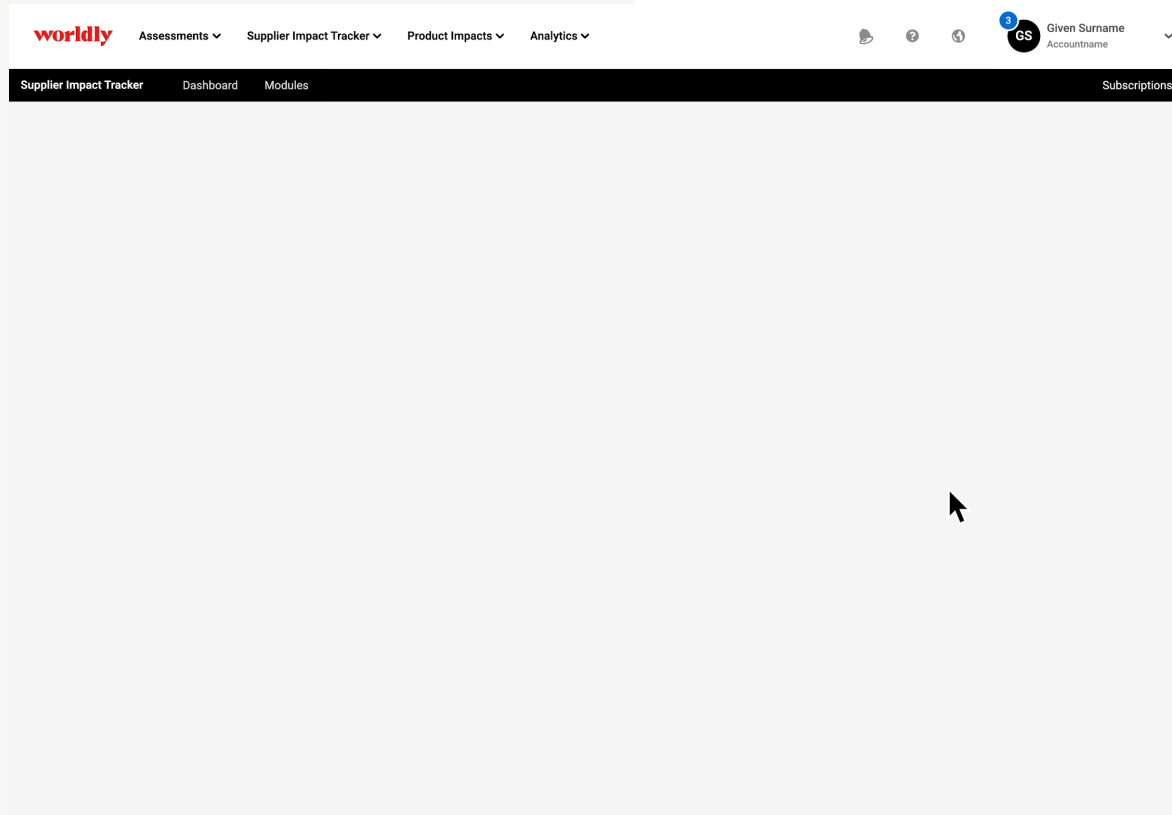

Key information:

- Site information is the largest section, but typically only needs to be completed once as the data rolls forward to future submissions
- You can update site information at any time if needed

Submitting Data

Tapestry facilities are required to submit **Energy, Water and Waste** data.

Volume Allocation

The screenshot displays the 'Volume Allocation' interface in the Worldly application. The top navigation bar includes the 'worldly' logo and menu items: 'Assessments', 'Factory Data', 'Product Impacts', and 'Analytics'. On the right, there are notification, help, and user profile icons, with the user profile showing 'SIT Supplier Imp...' and 'Leah Jaggars'. A secondary navigation bar contains 'Factory Data', 'Dashboard', and 'Modules', with 'Subscriptions' on the far right. The main content area is titled 'Supplier Impact Track Demo' and 'Dashboard / Apr 2024'. It features three main sections: 'Customer', 'Material Production', and 'Raw Material Processing', each with a 'Customer' label, a 'New factory for testing worldly' input field, and a '+ Customers' link. The 'Material Production' section also includes a 'kg' unit label and a mouse cursor icon.
